NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1987, and the General Rules as promulgated under the Utah Minerals Regulatory Program.

"Small Mining Operations" means mining operations which disturb five or less surface acres at any given time.

I. GENERAL INFORMATION (Rule R647-3-104)

- Name of Mine: ORGANA PIT MINE
- Name of Entity Applying for Permit: ORGANA MINERAL PRODUCTS INC
Contact (Authorized Officer): GARY JACKSON
Address: 515 WEST 300 NORTH SUITE F
City, State, Zip: ST. GEORGE, UTAH 84770
Phone: 435-652-4551 Fax: 435-656-0072
E-mail Address: M GARY332@HOTMAIL.COM

Entity is a: Corporation ☒ LLC () Sole Proprietorship (dba) ()
Partnership () General _____ or _____ limited
Individual () Other () - specify type _____

Entity must be registered (and maintain registration) with the State of Utah, Division of Corporations www.commerce.utah.gov.

Are you currently registered to do business in the State of Utah? ☒ Yes ☐ No

Entity # 1187165-0142

Local Business License # _____
Issued by: County _____ or City _____

Registered Utah Agent (as identified with the Utah Department of Commerce):

Name: MACK G JACKSON JR (GARY)

Address: 657 DIAGONAL ST

City, State, Zip: ST. GEORGE, UTAH 84770

Name of Quad Map for Location: FACTORY BUTTE

2. An accurate topographic base map showing the location of the proposed small mining operation must be submitted with this notice. The areas to be disturbed including access roads, must be plotted in sufficient detail so that they can be located on the ground. It is recommended that the Permittee / Operator also photo document, plot and label any pre-existing disturbances in the immediate vicinity that he is not responsible for.
3. The proposed (5 acre or less) disturbed area boundary (including access/haul roads) should be marked in the field ON THE GROUND with metal T-Posts (or with some other marker of equal effectiveness). Markers should be appropriately spaced so that the next marker in either direction is clearly visible with the naked eye.

III. OPERATION PLAN (Rule R647-3-106)

1. Type of mining: Surface ☒ Underground ☐
2. Mineral(s) to be mined: HUMIC SHALE
3. Amount of material to be extracted, moved or proposed to be moved: 150 TONS
4. Will any water, liquid chemicals, reagents, or other solutions be used, produced or discharged as part of the mining or milling process?
 Yes ☐ No ☒ If yes, please describe (add extra pages if needed)

5. Provide a brief description of the proposed mining operation and onsite processing facilities (add extra pages if necessary). NO PROCESSING
ONLY LOADING TRUCKS WITH FRONT END LOADER

6. ☐ New Road(s): Length _____ (ft) Width _____ (ft)
7. ☐ Improved Road(s): Length _____ (ft) Width _____ (ft)

8. Total project surface acreage to be disturbed: 0 / (acres) PLEASE SPECIFY EXACT ACREAGE - (this will be used to determine surety bond amount - see #VI).
9. Proposed startup date of project (month, year) _____
10. Proposed completion date of project, if known (month, year) _____

IV. OPERATION AND RECLAMATION PRACTICES (Rule R647-3-107, 108 & 109)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the Permittee / Operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining. Please refer to The Practical Guide to Reclamation in Utah, available at www.ogm.ut.gov.

1. Keep the mining operation in a safe, clean, and environmentally stable condition.
2. Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.
3. Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.
4. Construct berms, fences, or barriers, when needed, above highwalls and excavations.
5. Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.
6. Remove all waste or debris from stream channels.
7. Dispose of any trash, scrap metal, wood, machinery, and buildings.
8. Conduct mining activities so as to minimize erosion and control sediment.
9. Reclaim all roads that are not part of a permanent transportation system.
10. Stockpile topsoil and suitable overburden prior to mining.
11. Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.
12. Properly prepare seedbed to a depth of six inches by pocking, ripping, discing, or harrowing. Leave the surface rough.
13. Reseed disturbed areas with adaptable species. (The Division recommends a mixture of species of grass, forb, and browse seed, and will provide a specific species list if requested.)
14. Plant the seed with a rangeland or farm drill, or broadcast the seed. Fall is the preferred time to seed.

V. VARIANCE REQUEST (Rule R647-3-110)

Any variance request must be approved in writing by the Division

Yes ☐ No ☐

Any planned deviations from Rules R647-3-107, Operation Practices, R647-3-108, Hole Plugging Requirements, or R647-3-109, Reclamation Practices, as summarized above (see IV. Operation and Reclamation Practices Item # 1-14), should be identified below listing applicable rule number. Give justification for the variance(s) and alternate methods or measure to be utilized. A variance shall be granted if the alternative method or measure proposed will be consistent with the Act.

VI. SURETY (Act 40-8-7(1)[c])

A reclamation contract and surety must be provided to and approved by the Division prior to commencement of operations.

The Utah Mined Land Reclamation Act (40-8-7 (1)[c] and 40-8-14 provides the authority that all mining operations furnish and maintain reasonable surety to guarantee that the land affected is reclaimed according to accepted *notices* consistent with on-site conditions.

The surety amount is based on the nature, extent and duration of operations. *The surety amounts are based on data from current large mine surety and are used as a general guide, along with actual site conditions.*

Surety for small mines sites will be escalated three (3) years to the future. Contact the Division for dollar amount required for this project.

I have provided or will provide surety in the form of:

☐ Certificate of Deposit ☐ Letter of Credit ☐ Surety Bond ☒ Cash (certified funds)
☐ Other _____ (please identify)

VII. PERMIT FEE [Mined Land Reclamation Act 40-8-7(1)(i)]

The Utah Mined Land Reclamation Act of 1975 [40-8-7(1)(i)] provides the authority for the assessment of permitting fees. Commencing with the 1998 fiscal year (July 1 - June 30), permit fees are assessed to new and existing notices of intention, and annually thereafter, until the project disturbances are successfully reclaimed by the Permittee / Operator and released by the Division.

Small Mine Notices require a \$150.00 fee which must accompany this application or it cannot be processed by the Division.

NOTICE: The following person(s) are authorized and designated to receive Notices of Violations, Cessation Orders and all other Notices required by the Division to be given to the permittee or operator:

Name: GARY JACKSON
Address: 515 WEST 300 NORTH SUITE F
City, State, Zip: ST. GEORGE, UTAH 84770
Phone: 435-652-4551 Fax: 435-656-0072

Phone: _____ Fax: _____
E-mail Address: _____

VIII. SIGNATURE REQUIREMENT

(Please check the box and place your initials on the line provided)

LMJ ☒ G

I have enclosed the required permit fee.

_____ ☐ G

I have enclosed a complete Reclamation Contract (Form MR-RC) and the appropriate reclamation surety amount or have made arrangements as to when the surety will be furnished.

LMJ ☒ G

I understand that I am not authorized to create any surface disturbance until the surety amount is posted and approved in writing from the Division of Oil, Gas and Mining and any other authorized regulatory agency.

CERTIFICATION

I state under penalty of perjury under the laws of the state of Utah and the United States of America that:

- I have read this form and declare the information, statements and/or documentation are true, correct and complete to the best of my knowledge and belief; AND
- I commit to the reclamation of the aforementioned small mining project as required by the Utah Mined Land Reclamation Act (40-8) and the rules as specified by the Board of Oil, Gas and Mining.
- This certification must be executed by an executive officer if the applicant is a corporation; by a partner if applicant is a partnership (general or limited); owner if applicant is a sole proprietorship; member or manager if applicant is a limited liability company.**

DIV. OIL GAS & MINING

My plan of operation is as follows:

To start in the south area of the pit in the area that Ken Westwood had taken out material before. We will use a back hoe to dig 3 to 4 feet deep and go 50 to 100 ft long until area is found. If we do not find the material we will reclaim that area and move a little and go again until old stock pile is found. We have people who have worked for Ken & know where it is.

When we find the material we will make a 14 x 14 square and could possibly go 8 to 14 deep to get the material out. The material would be dug out and loaded into trucks for hauling.

To help fill the area where material is taken out we will use the old spoils area. We will also make sure the spoils area is regraded and kept neat.

We know the pit area is a sensitive thing and we plan to keep the contour, drainage not get into any coal seams and not disturb any large area.

We have experienced contractors who know the area and are in Cainville, Hanksville and Bicknell that are close so they can do any work we need. Any area for reclaiming will be kept at a minimum. Any help in the size of the bond amount would be helpful and you will find us cooperative and easy to work with.
